

LUX® GUARDIAN PLATINUM

CANISTER HOME CARE SYSTEM

AERUS The Ultimate in Performance & Beautiful Design

Your home is a reflection of you and how you want to live. That's why we've designed our new Lux Guardian Platinum to be stylish and durable, with intuitive performance, so you can create a clean, healthy home that is exactly right for you.

The Lux Guardian Platinum is engineered to be in a class by itself. Despite a high-powered motor, operation is exceptionally quiet and two sealed HEPA filters ensure the tiniest contaminants are captured and clean air is released. The Lux Guardian Platinum is as smart and purposeful as it is elegant, with features such as the Automatic Operation Mode that senses what type of cleaning you are performing, and the System Indicator to alert you when maintenance is needed, you'll find everything you'd expect from a high-performance floor care system.

On Board Tool Storage Option

High-Powered Motor

Features an amazing 505 air watts and 116" of water lift.

Remarkably Quiet Operation

The Lux Guardian Platinum features an aerodynamic air guide design and multi-layered sound insulation.

Sleek Design

The stainless steel design is protected by a special anti-fingerprint finish.

Performance Indication

A System Indicator alerts the condition of operation including suction level and automatic mode, prefilter notification, full filter bag and over-heated motor.

Intelligent Suction

Suction control can be adjusted across 8 levels according to the task you are performing. Control manually or automatically. Use maximum power for vacuuming floors and deep cleaning, medium power for vacuuming upholstery or dusting and minimum power for delicate cleaning.

Simple Maneuverability

The 3-wheel guidance system makes the canister easy to pull behind as you vacuum. A rubberized coating prevents scratches on wood floors and ensures quiet operation.

Effortless Assembly

The Push & Pull Connection System makes inserting and removing the electrical hose effortless. The hose rotates 360° on both ends and the handle features an ergonomic design.

Unique Parking Positions

The canister features two power nozzle parking positions, one on the side of the canister for interruptions while cleaning and one on the bottom of the canister for storage.

Automatic Protection

If an object becomes tangled in the power nozzle brush, the circuit breaker will automatically shut off the brush to prevent damage. A built in thermo coupler protects the motor by shutting it down if it overheats.

Ease of Use

The unique L-shape power nozzle provides 4-sided cleaning and self-adjusts its height between types of flooring. Also equipped with a headlight.

Versatility

Top-mounted power switch is operated with a simple foot tap. Switches located on the handle adjust suction and turn off the power nozzle brush roll when using on hard surface flooring.

Control

A switch on the handle turns off the brush roll for use on hard surface flooring.

Convenience

Accessories are stored on board the canister for quick access and an automatic cord winder easily stores the 28 foot cord.

WORRY FREE
15-year limited warranty

LUX® GUARDIAN PLATINUM CANISTER HOME CARE SYSTEM

4 levels of purification with double HEPA filtration:

1. Filter Bag – Home Solutions Filter Bags are 4 times more effective at capturing dust and tiny particles than the previous 4-ply design.
2. True HEPA Filter – Significantly improves indoor air quality by trapping and retaining 99.97% of particles as small as 0.3 micron.
3. Carbon Filter – A high porosity, activated charcoal filter follows the True HEPA filter to effectively reduce odor and moisture.
4. LongLife True HEPA After Filter – Before the air is released back into the environment, it passes through the LongLife HEPA after filter to capture any tiny particles that may still exist.

SPECIFICATIONS

electrical rating	9 amps at 120 volts AC 60 HZ
air watts (motor)	505
canister weight	14.3 lbs
power nozzle weight	5.0 lbs
canister dimensions	22" long x 9" wide x 9.375" high
power nozzle dimensions	3.25" high x 15" wide x 8.125" deep
cord length	28 ft.
filter bag capacity	2.5 US qts

With a Complete Assortment of Deluxe Accessories

Sidekick® – A mini, motorized power nozzle useful in cleaning stairs, bedding, car interiors, and more!

Combination rug/floor tool – Use the floor brush to clean hard surfaces, then rotate it over to use the straight suction tool on your fine rugs.

Crevice tool – Perfect for narrow, hard-to-reach areas such as bookshelves, between couch cushions and car interiors.

Combination dusting/upholstery tool – Soft bristles protect your furniture and delicate surfaces, while adjustable wings allow for improved cleaning of upholstery or fabrics.

The First Name in Healthy Homes®

From 1924 through the turn of the century, we were Electrolux, the clear leader in home cleaning throughout North America.
